

Illinois Department of Transportation

Danville Main Street (US 136) from Pine Street to Collett Street

May 11, 2006

For the Week of May 14 to May 18, 2006

Work will continue on the center lane median at the Norfolk Southern Railroad on Monday. New railroad signals and gates will be installed in the center of the road and protected by a median.

Earth excavation will continue from the Stone Arch Bridge to Elizabeth Street. Buchanan Street will be closed for approximately three weeks. Bunge Milling is accessible by Lauhoff Street. Once the dirt is graded, 12" of gravel base will be laid and catch basins will be installed.

Westbound traffic has been routed to the south side of Main Street from Collett to Park Street in what was the eastbound passing lane. One lane each direction will now be next to each other in this area. Westbound traffic shifts back to the westbound driving lane near Park Street.

Kuchefski Heating and Air, Progressive Builders, Walker Electric, Bacon and Van Buskirk Glass Company, Extreme Motors, and Watson General Tire are accessible from either Main Street or from Van Buren Street. Van Buren Street runs parallel to Main Street one block north of Main Street.

Please use caution when driving in the work zone.
Please obey the 20 mph speed limit in the construction zone.
All left turns will now be prohibited except for Lauhoff and Buchanan Streets.

Minimal delays and congestion are expected this week.

For your safety, please stay out of work areas, and obey the sidewalk closed signs.

Please be aware that Danville Mass Transit might alter bus routes. Please contact them for more information.
